Gentlemen:

I would like to purchase a copy of the publication which is entitled " Forensic Neutron Activation Analysis of Bullet Lead Specimens: (GA 10141)": The Federal Bureau of Investigation has advised me that the cost of the publication is three dollars ($3.00) and I have enclosed a check in that amount. If any additional payment is required, please notify me and a check will be forwarded immediately.

Also, I would like to know if there is a catalog of other related publications available, which I might receive. I am particularly interested in ballistics and weapon identification. Thank you.

Sincerely yours,

Emory L Brown Jr
